

**REMARKS**

By the foregoing amendments, claims 9-13 and 18-24 are pending in this application, claims 9 and 21 being independent claims. The foregoing amendments are believed to place the application in condition for allowance, and such action is respectfully solicited.

**Response to Claim Objections:**

The Office Action objects to claims 21-24 for the use of parenthesis in claim 21, but states that claims 21-24 would be allowable upon correction. Applicants have removed the parenthesis from claim 21 and now believe claims 21-24 are in condition for allowance. Applicants appreciate the allowance of these claims.

The Office Action also objects to claims 9-13 and 19 as being dependent upon a rejected claim, but states these claims would be allowable if rewritten in independent form including the base claim and all intervening claims. Applicants have amended claim 9 to be in independent form to include all intervening claims. Applicants therefore believe claim 9, and the claims that depend from claim 9 (claims 10-13, and 18-20), are now in condition of allowance, and respectfully request such allowance. The limitation in claim 9 as to location of the cooling system has been modified to allow for dependency of claim 18. Claims 18-20 were previously dependent on claim 7 but have been amended to depend on claim 9 in light of the cancellation of claim 7.

**CONCLUSION**

In light of the foregoing, Applicants respectfully submit that each item set forth in the Office Action dated November 25, 2003 and the recent Advisory Action have been fully addressed. All of the previously rejected claims have either been cancelled by the foregoing amendments or have been amended to depend from a claim previously indicated as being allowable. Applicants respectfully request that all remaining pending claims be allowed and the application passed to issue.

Examiner noted that some prior art of record was considered pertinent to Applicants' disclosure. Applicants have reviewed the prior art of record and contend that it does not adversely bear on the patentability of the pending claims.

In the event any further matters requiring attention are noted by the Examiner or in the event that prosecution of this application can otherwise be advanced thereby, a telephone call to Applicants' undersigned representative at the number shown below is invited.

A Petition for a One Month Extension of Time is being filed concurrently with this Response. Please apply any charges or credits to Deposit Account No. 502197.

Respectfully submitted,

Dated: 18 March 2004
